Clapp- statute limitations, chambers conferences

On the second page of this memo of 12/15/72 I respond to his letter dated three days earlier. It followed one of two weeks earlier in which he among other things pressed us to settle for $5,000.

In this I remind him that the wording of the claims that were accepted supports my statement that I was told the filing of the claims tolled the running of the statute. There is more on this, as I've already noted to you.
